I'm a Computer Science undergrad at VIT Bhopal, passionate about solving problems and finding smart, practical solutions to real-world challenges. I've built a strong foundation in technical concepts and love working with others to bring ideas to life. With an analytical mindset and a proactive attitude, I'm always looking to learn, grow, and contribute to meaningful projects. I'm especially excited about exploring roles like Problem Analyst or Project Manager as I shape my career path.

EDUCATION

VIT BHOPAL UNIVERSITY

Bachelor of Technology
Computer Science Engineering.
CGPA: 7.39/10.0

Bhopal, India
Anticipated July 2027

Relevant Coursework: Data Structures; Software Engineering; OS; Algorithms; Artificial Intelligence; Data Analysis

MOTHER TERESA CONVENT SCHOOL

XI-XII
Cumulative Percentage: 78%

Morena, India
May 2020 – Jul 2022

PROJECTS

SKINSYNC
